Dear Valued Trading Partner:

Per our previous communications, we are sending an update that **i+solutions** has partnered with 1WorldSync to implement and leverage the Global Data Synchronization Network (GDSN®) for the exchange of master product data.

**i+solutions** is a Dutch not-for-profit organization providing access to best-priced, internationally recognized, quality health products and supply chain management solutions to low and middle-income countries. We are active in several projects that aim to solve bottlenecks in the access to medicines in developing countries.

**Impact by Innovation:**

Our vision is a world where no medical need goes unmet. To achieve this, we partner with governmental, private sector, public and charitable organizations to develop health infrastructures to help low and middle-income countries become resilient societies. Our mission is to save and improve lives by creating well-functioning health supply chains.

- **Collaboration:** We are team players, working collaboratively with our partners and colleagues. We value relationships based on respect, fairness, and a shared level of effort.
- **Commitment to Excellence:** We embrace our abilities as well as our limitations and strive for optimal results in everything we do. We recognize that our best efforts are reflected in the positive impact on the health of the communities we serve.
- **Empowerment:** Every member of the i+solutions team is a valued asset and has a vital role to play in achieving our goals. We support each other in finding innovative solutions to the challenges we face in our business.

**How to Participate:**

**To participate in this important initiative, we are asking suppliers to take the following steps:**

- 1) Fill out the **i+solutions** [Trading Partner Form](#)
