1 PLAZA FOOD SYSTEMS DATA SYNCHRONIZATION INFORMATION

Plaza Foods Systems (PFS) is a re-distributor for IPC/SUBWAY®. Improving supply chain visibility has become a major focus for IPC/SUBWAY® for three main reasons: operational efficiencies, food safety, and customer satisfaction. PFS shares these goals and is committed to meeting the goals outlined by IPC/SUBWAY® and would like to thank you for your support in adopting GS1 Standards and the implementation of best practices as defined by the Foodservice GS1 US Standards Initiative! PFS has partnered with 1WorldSync for data pool services to facilitate GS1 Standards and implement Global Data Synchronization Network (GDSN). In accordance with IPC/SUBWAY® guidelines, suppliers are requested to publish item information for all products purchased by SUBWAY to IPC and all SUBWAY® distributors. The purpose of this document is to provide you information on PFS data sync requirements and how you can publish your data to PFS via the GDSN. Note PFS has made every effort to mirror the IPC/SUBWAY® guidelines with regard to requirements.

1.1 Primary Data Synchronization Contact

Plaza Food Systems: GDSN@plazafoodsystems.com

2 STEPS TO BEGIN SYNCING YOUR DATA WITH PLAZA FOOD SYSTEMS

- 1. Load accurate item information into your GDSN certified data pool provider
- 2. Review attribute requirements in Section 3 of the this guide
- 3. Complete the required information in the PFS Trading Partner Form located on the <u>PFS Landing Page.</u>
- 4. Publish information for all items sold to SUBWAY® including SUBWAY® branded items and manufacturer branded items.
 - a. Publish to **PFS GLN: 0868173000308**
- 5. Publish items for all Target Markets.
- 6. Publish CASE level information only for SUBWAY® branded items
- 7. Publish item data with the appropriate Publication Types of 'Initial Load' or 'New'.
 - a. "Initial Load" for existing item information (items already sold in system).
 - b. "New" for brand new item introductions
- 8. Publish "Phase 1" (Supply Chain information) required attributes for ALL new items via the GDSN immediately after a GTIN is issued
- 9. We encourage suppliers to publish "Phase 2" (Nutritionals and Marketing information-including images), but <u>DO NOT REQUIRE IT</u>
- 10. Suppliers can use the **brandDistributionType** flag in each publication to tell distributors to relax their validations and allow proprietary items to bypass their audits for additional item information
 - a. Please contact your data pool for assistance with populating this attribute.

3 CIC RESPONSES

- 1. Investigate and respond to "Review" CIC responses. Plaza Food Systems will provide feedback on publications using the following method:
 - a. **RECEIVED**: Plaza Food Systems received the product information but no business decision has been made on the data.
 - b. **SYNCHRONIZED**: Product information passed the Plaza Food Systems mandatory requirements and/or audits and was successfully uploaded to their internal system.
 - c. **REVIEW**: Product does not pass Plaza Food Systems GDSN validations or product has failed Plaza Food Systems' audit process and therefore has data discrepancies to be reviewed and addressed. Reason for Review status will be transmitted in CIC999. This response may follow a Received message and may take several days to resolve.
 - d. **REJECT**: Product has been de-listed by Plaza Food Systems.
- 2. Continue to send changes and corrections for all items via the GDSN process.
- 3. Ensure your case weights and dimensions are accurate using a cubiscan and following package measurement rules as per GS1.

4 ATTRIBUTE REQUIREMENTS

4.1 PFS Mandatory

In addition to the GDSN mandatory attributes, PFS requires the attributes in the tables below. Please note that failure to provide these attributes will result in a REVIEW CIC being generated back to the Supplier.

4.2 PFS Recommended

The attributes in the following table are strongly recommended to be populated. Failure to provide these attributes will not result in a REVIEW CIC being generated and the product information will be integrated, however, at a future point in the data synchronization process, PFS will call upon you to provide these attributes. The information in the following table is necessary for SUBWAY® Operating divisions.

4.2.1 ADDITIONAL ATTRIBUTE FIELDS
