

Steps for synchronizing GDSN data with Walgreens

1. Review Walgreens data synchronization Implementation Guide available at <http://1worldsync.com/walgreens> for attribute requirements
2. Complete the Walgreens Trading Partner Setup Form at <http://www.1worldsync.com/web/us/walgreens-trading-partner-form>
 - In the form, provide a list of GDS Classifications that will be published for each Walgreens vendor number
3. Walgreens will send an email notification to the supplier's primary data synchronization contact informing next steps in the Walgreens GDS onboarding process
4. Publish a valid GTIN to confirm that the subscription is active. Walgreens GLN is **004902200001**
 - Walgreens will immediately send an ACCEPTED CIC Message to confirm receipt of the CIN.
5. Export your complete Item Catalog via the AIS-DC web application and review the Case GTINs assigned to all of your items.
6. Publish your full Item Catalogue to ensure that Walgreens has the most up-to-date information for all of your GTINs
