Dear Supplier and Manufacturers,

Menu Freedom from NutriStudents K-12 is a self-operated software platform that helps K-12 schools, and other state agencies, effectively manage their USDA complaint food service programs. We provide menus, reporting and nutritional analysis.

We are now enhancing our software system to be even more robust by partnering with 1WorldSync to implement the Global Data Synchronization Network (GDSN), to receive enriched, standardized product information.

This allows us to offer your products to nutrition professionals nationwide, therefore increasing your visibility, and giving them the option to use your products in their menu planning and purchasing decisions.

We ask that upon receiving this communication you take the following steps:

1. Complete the Menu Freedom [Trading Partner Form](#)
2. Review the Menu Freedom [Implementation Guide](#)
3. Review the Menu Freedom [Attribute List](#)
4. Publish your GDSN Item Content to the **Menu Freedom GLN 1200109010804**

If you have questions regarding this important initiative, please contact datasync@nutrstudentsk-12.com or 1WorldSync at businessdevelopment@1worldsync.com or 866-280-4013.

Thank You,

Eldon Brustuen
President and Co-Founder
