Production: **0041318001501**

2.3 Data Sync Environment

Data Pool: 1WorldSync

3 STEPS TO BEGIN SYNCING YOUR DATA WITH SCHNUCKS

Implementation Steps

1. Complete the Schnucks Trading Partner Form found on the Schnucks Data Sync Landing Page at www.1worldsync.com/schnucks. This will enable Schnucks to create a subscription based on the Information Provider GLN submitted.
2. Review the complete listing of attribute requirements for GDSN and Schnucks found in the Schnucks Attribute Guide at www.1worldsync.com/schnucks.
3. Have your complete and accurate item data loaded into your GDSN certified data pool and ensure it is ready for publication in Production.
 - Contact your data pool for any education you might require completing this step.

Production Publication Steps

Existing Items

1. Once you have submitted the Schnucks Trading Partner Form, Schnucks will email the primary data synchronization contact provided with a list of existing items currently sold to Schnucks for publication.
 - Publish the list of requested items to the Schnucks GLN **0041318001501** as **Initial Load**
 - Item List Feedback: If the list of items Schnucks has requested for publication contains discontinued items or items not found in your system, please email Schnucks at productsetup@schnucks.com with your item list feedback.
2. Schnucks will review the publications and provide feedback on non-compliant items or any other issues with the item publications using REVIEW CICs.
3. Investigate and respond to "Review" CIC responses. Schnucks will provide feedback on publications using CIC responses. If an issue requires additional clarification this will be communicated in addition to the CIC response.

New Item Set Up

1. Work with your Category Manager to complete the Schnucks New Item Form (NIF) for any requested items.
2. Once you have completed the NIF and have submitted the Schnucks Trading Partner Form, Schnucks will email the primary data synchronization contact provided to confirm they are ready to accept your publication(s).
 - Publish your approved item(s) to the Schnucks GLN **0041318001501** as **New**
3. Schnucks will review the publications and provide feedback on non-compliant items or any other issues with the item publications using REVIEW CICs.

4. Investigate and respond to "Review" CIC responses. Schnucks will provide feedback on publications using CIC responses. If an issue requires additional clarification this will be communicated in addition to the CIC response.

Item Changes

1. For any item attribute updates on items previously published to Schnucks
 - Publish item updates to the Schnucks GLN **0041318001501**
 - *Note:* If you are modifying one of the following attributes, you will need to submit a **Hierarchy Withdraw** to suspend synchronization of the item while the item is being modified.
 - Quantity of Next Level Item
 - Base Unit Indicator
 - Special Item Code

Once modified, you will need to publish the item again as **Initial Load**.

2. Schnucks will review the publications and provide feedback on non-compliant items or any other issues with the item publications using REVIEW CICs.
3. Investigate and respond to "Review" CIC responses. Schnucks will provide feedback on publications using CIC responses. If an issue requires additional clarification this will be communicated in addition to the CIC response.

Discontinued Items

1. Suppliers must assign and publish a **Discontinued Date** prior to discontinuing an item.
2. Once the Discontinued Date has been successfully published and the Discontinued Date has passed, submit a **Publication Delete** for the item being discontinued.

Catalog Item Confirmations (CIC's)

CIC Messages:

RECEIVED: Product received and passed Schnucks GDSN validations. This response will typically be sent within a few hours after receiving the publication.

REVIEW: Product does not pass Schnucks GDSN validations or product failed Schnucks audit process and therefore has data discrepancies to be reviewed and addressed. Reason for Review status will be transmitted in CIC999. This response may follow a Received message and may take several days to resolve.

SYNCHRONIZED: Product fully accepted and loaded into Schnucks internal system and updated as revisions occur. This response is sent after all validations and audits are successfully completed.

REJECTED: Product de-listed by Schnucks.

3 SCHNUCKS REQUESTED ATTRIBUTES

All attributes can be found in the Schnucks Attribute Guide on the Schnucks Data Sync Landing Page at www.1worldsync.com/schnucks.
