1.2 Pomegranate Technologies GLN - Publish To

Production:

2 STEPS TO BEGIN SYNCING YOUR DATA WITH POMEGRANATE TECHNOLOGIES

1. Sign up with a GDSN-certified data pool (e.g., 1WorldSync) if you are currently not a customer. Learn about the implementation options offered by 1WorldSync and choose the option that works best for your company.

2. Obtain Education/Training from your data pool or solution provider.

3. Load items into your data pool (e.g., 1WorldSync)
   - Ensure your data is accurate (pack quantities, measurements, weights etc.)
   - Load all item levels in your packaging configuration (hierarchy) – Each, Case, & Pallet
   - Review attribute requirements in Section 3 of this document to ensure you can meet Pomegranate Technologies's requirements.

4. Complete the Pomegranate Technologies Trading Partner Form located at:

   www.1WorldSync .org/Pomegranate Technologies

5. Pomegranate Technologies will create a subscription based on your Information Provider GLN.

6. Publish your existing and/or new items in the Production environment.

7. Manage Catalogue Item Confirmation (CIC) Responses from Pomegranate Technologies
   - CIC with state of "ACCEPT" means that Pomegranate Technologies has received your data, but no business decision has been made on the data.
   - CIC with state of "REVIEW" means that Pomegranate Technologies is asking you look over your data due to discrepant data they cannot synchronize on.
   - CIC with state of "SYNCHRONIZE" means that Pomegranate Technologies has integrated your data with their backend systems.
   - CIC with state of "REJECT" means that Pomegranate Technologies did not accept your data.
   - **Note:** Pomegranate Technologies is using the CIC status details. This will give you clarification on what is discrepant with your data.

8. Send ongoing item maintenance notifications through your GDSN Certified Data Pool (e.g., 1WorldSync) to Pomegranate Technologies GLN.

3 ATTRIBUTE REQUIREMENTS

The attribute guide can be found on the Pomegranate Technologies landing page:

Micro Site Link Goes Here

Please review the Pomegranate Technologies Attribute Guide for:

I.   Mandatory attributes by GDSN and 1WorldSync to ensure quality and completeness.

II.   1WorldSync data pool subscribers use the Pomegranate Technologies Solutions **playlist** within the Item Management platform. The playlist will ensure that you are not missing any information required by Pomegranate Technologies for successful synchronization.
