About PREMIER®

- Premier, Inc. (NASDAQ: PINC) is a leading healthcare improvement company, uniting an alliance of more than 4,350 U.S. hospitals and health systems and approximately 300,000 other providers to transform healthcare
- Premier's Foodservice program services over 37,000 members across the entire foodservice industry, including healthcare, education, hospitality, and other commercial and non-commercial segments
- With integrated data and analytics, collaboratives, supply chain solutions, consulting and other services, Premier enables better care and outcomes at a lower cost

GDSN Initiative

Overview:

- GDSN facilitates transfer of product data attributes that would otherwise require intensive manual effort to collect.
- GDSN enables the providing of product images that allow our members to find and review your products in our online catalog (SCA).
- GDSN provides a feedback loop for attribute correction that benefits all data subscribers.

Benefits:

- Healthcare - Access to and utilization of Unique Device Identification (UDI) numbers helps drive efficiencies and standards throughout the supply chain.
- Foodservice - Assists members with a variety of projects to support their product and menu initiatives, which commonly require visibility to allergen information, key marketing & nutritional claims, and packaging details.

What is GDSN and Data Synchronization?

Global Data Synchronization Network (GDSN) is world's largest product data network of:

1. **Information providers** such as brands, or suppliers
2. **Information requesters** such as convenience stores, retailers, ecomm companies, etc.
3. **Data pools** such as 1WorldSync who provide system or platform to enable the sharing of product information via GDSN method

Data Synchronization is the process of sharing all product data via a data pool with participating customers

1. Product attributes that can be exchanged via GDSN solution include supply chain, compliance, regulatory, marketing, digital assets and much more
2. Hundreds of retailers and distributors can be reached with trusted content.
