1 KIMELO DATA SYNCHRONIZATION INFORMATION

1.1 Primary Data Synchronization Contact

Name: Kimelo Data Standards Team

Email: dev-sync@kimelo.com

We encourage you to leverage the 1WorldSync [Community Platform](#) to ask questions, learn from your peers, and access other training and reference materials to assist your data synchronization with Kimelo.

1.2 Kimelo 's GLN - Publish To

Production: 0860003435502

2 STEPS TO BEGIN SYNCING YOUR DATA WITH KIMELO

1. Sign up with a GDSN-certified data pool (e.g., 1WorldSync) if you are currently not a customer. To learn about the implementation options offered by 1WorldSync and choose the option that works best for your company you can contact us at: businessdevelopment@1worldsync.com
2. Obtain Education/Training from your data pool or solution provider.
3. Load items into your data pool (e.g., 1WorldSync)
 - Ensure your data is accurate (pack quantities, measurements, weights etc.)
 - Load all item levels in your packaging configuration (hierarchy) – Each, Case, & Pallet.
 - Review attribute requirements in Section 3 of this document to ensure you can meet Kimelo's requirements.
4. Complete the Kimelo Trading Partner Form located at:
<https://1worldsync.com/trading-partners/kimelo/>
5. Kimelo will create a subscription based on your Information Provider GLN.
6. Publish your entire item catalog and/or new items in the Production environment.
7. Manage Catalogue Item Confirmation (CIC) Responses from Kimelo:
 - CIC with state of "RECEIVED" means that Kimelo has received your data, but no business decision has been made on the data.
 - CIC with state of "REVIEW" means that Kimelo is asking you look over your data due to discrepant data they cannot synchronize on.
 - CIC with state of "SYNCHRONIZE" means that Kimelo has integrated your data with their backend systems.
 - CIC with state of "REJECT" means that Kimelo did not accept your data.

Note: Kimelo is using the CIC status details. This will give you clarification on what is discrepant with your data.
8. Send ongoing item maintenance notifications through your GDSN Certified Data Pool (e.g., 1WorldSync) to Kimelo's GLN.

3 ATTRIBUTE REQUIREMENTS

The attribute guide can be found on the Kimelo landing page:

<https://1worldsync.com/trading-partners/kimelo/>

Please review the Kimelo Attribute Guide for:

- I. Mandatory attributes by GDSN and 1WorldSync to ensure quality and completeness.
- II. 1WorldSync data pool subscribers use the **Kimelo playlist** within the Item Management platform. The playlist will ensure that you are not missing any information required by Kimelo for successful synchronization.
