### **2.3 Catalog Item Confirmations (CICs)**

Denver Wholesale Foods will automatically return a CIC message to the supplier of “Received”. However, the following CICs will be sent based on the following:

#### **CIC Messages:**

**RECEIVED** (Auto Generated): Items have been received, but Denver Wholesale Foods has NOT reviewed the data to ensure its completeness. This response will typically be sent once to confirm receipt, and an updated CIC will follow once the data has been reviewed.

**REVIEW:** The item does not pass Denver Wholesale Foods GDSN validations, or the item has failed the audit process and, therefore, has data discrepancies to be reviewed and addressed. Denver Wholesale Foods will provide a reason as to why a specific item hierarchy is in this state for the applicable attribution so that the supplier can update the item data as required.

**SYNCHRONIZED:** The item has been fully accepted and ingested into Denver Wholesale Foods’ internal system and will be updated as modifications and corrections occur. This response will be sent after all validations and audits have been completed.

**REJECTED:** Denver Wholesale Foods no longer wants to receive publications or updates for this item to their internal back-end system, or the item has been discontinued by the manufacturer or de-listed by Denver Wholesale Foods.
