  - Grocerist will create a subscription based on the GLN shared via the Trading Partner Form.
  - We will inform you via email when we are ready to receive your item data via 1WorldSync
3. Prepare your item data into your home data pool/platform and ensure it meets Grocerist, Inc product content requirements as outlined in Section 3 of this document.

### 2.2 Publication Steps

1. Publish your items to Grocerist GLN (1200180445854):
  - Publish items requested by Grocerist Brand owners are welcome to share any additional items in their catalog.
  - Note: Grocerist supports all major retailers and local grocers in the United States and will accept your full US catalog if published.
2. Publish the full item hierarchy as “New Item”.
3. Investigate and respond to “REVIEW” CIC responses.

## 2.3 Catalog Item Confirmations (CICs)

Grocerist will automatically return a CIC message to the supplier of “Received”. However, the following CICs will be sent based on the following:

### **CIC Messages:**

**RECEIVED** (Auto Generated): Items have been received, but Grocerist has NOT reviewed the data to ensure its completeness. This response will typically be sent once to confirm receipt, and an updated CIC will follow once the data has been reviewed.

**REVIEW:** The item does not pass Grocerist GDSN validations, or the item has failed the audit process and, therefore, has data discrepancies to be reviewed and addressed. Grocerist will provide a reason as to why a specific item hierarchy is in this state for the applicable attribution so that the supplier can update the item data as required.

**SYNCHRONIZED:** The item has been fully accepted and ingested into Grocerist internal system and will be updated as modifications and corrections occur. This response will be sent after all validations and audits have been completed.

**REJECTED:** Grocerist no longer wants to receive publications or updates for this item to their internal back-end system, or the item has been discontinued by the manufacturer or delisted by Grocerist.
