

Steps for Synchronizing GDSN Data with Meijer

1. Provide Meijer with your publishing GLN company contact information by completing the Trading Partner Form at <https://www.1worldsync.com/community/customers/meijer/>
2. Meijer will subscribe to the data sync GLN provided
3. For current vendors, include only product that is supplied to Meijer in the Initial Load publication.
 - Report of active product can be found on the MeijerVendorNet>Sales & Merchandising>Reporting>Micro Strategy>UPC Info LookUp
 - Publish your information to Meijer GLN **004125000006**
 - 1WorldSync Item Management (IM) users should apply the Meijer Playlist during the item setup process.
4. Monitor your Catalogue Item Confirmations (CIC) for status of product
 - Review IMPLEMENTATION GUIDE for detailed process and CIC messages. This can be found at: <https://www.1worldsync.com/community/customers/meijer/>
5. Once your initial load has been sent, any new or changes to products will be managed through your Data Pool.

Top off information for New and Changes will be required to be completed on the Meijer VendorNet>Product>Product Set & Maintenance>Product Entry Form Application

For more information visit <https://www.1worldsync.com/community/customers/meijer/> and or contact datasync@meijer.com
